# URBAN-REACH

## ***EXECUTIVE SUMMARY: October 2000- March 2001 Report***

During the semi annual period from October 2000 through March 2001, World Vision – through the Urban REACH project -- continued to distribute vitadele. World Vision staff also conducted key training sessions. A no-cost extension of the grant was accepted. The project will now continue to function through January 2002. The activities to be implemented during the next three quarters, however, will be modified from current activities. The program will focus only on the Surabaya area. Activities in the East Jakarta area will continue through the Transitional Activities Program funded by USAID Food Aid Department.

### ***1. Coordination with local government and other NGOs Meetings***

#### ***East Jakarta***

World Vision Urban REACH program had good coordination with the Ministry of Health District Representative. Several meetings had been conducted during October 2000 to March 2001 between World Vision and Ministry of Health, District Representatives. The goal of most of the meetings was to inform both Urban REACH and MoH about the program and also to encourage mutual cooperation. Some training was facilitated by MoH District representatives in Sub-District levels area.

Due to the Vitamin A campaign, the Urban REACH project in cooperation with Helen Keller International and MoH District representative, conducted some meeting and distributed brochures and other Vitamin A campaign materials.

#### ***Surabaya***

A coordination meeting was held between World Vision Urban REACH program and Community Leaders (Head of village, Head of Women Welfare Movement (*PKK*) and Health Post (*Posyandu*) cadres.

The meeting was to inform Urban REACH Activities and discuss some feedback from the report. On December 2000, there was a meeting to discuss community support for having a Child Nutrition center in each village -- especially in Tegalsari village where the malnutrition rate is high.

## **2. Management Report**

### **1.1 Design and Training:**

#### ***East Jakarta***

Several training sessions were conducted during October 2000 to March 2001. One training session was geared toward s Cadres and Mid Wives. The topics chosen were exclusive breast-feeding and vitamin A acceleration.

Certain training for staff was also conducted to improved staff capability on Health Education Counseling.

***Surabaya***

The Surabaya office conducted trainings for health facilitators. The training sessions were regularly conducted twice a week. The trainings sessions were facilitated by project health officers. Topics of those training included:

1. Diarrhea
2. Acute Respiratory
3. Immunization
4. Vitamin and Micronutrient
5. Breastfeeding
6. Counseling

**1.2. Personnel:*****East Jakarta***

At the end of February 2001, the Urban REACH project in East Jakarta completed its activities. As such, Mr. Samuel Nuhamara, the Urban REACH East Jakarta Project Manager, was relieved of his responsibilities. Mr. Nuhamara's responsibilities were taken over by Dr. Amsal Ginting.

***Surabaya***

Mrs. Rachel P. Utomo was assigned as Urban REACH Surabaya based Project Manager on December 2000.

**1.3. Monitoring :*****East Jakarta***

To monitor Child Nutritional Status, the program conducted home visits to malnourished children. From October 2000 to March 2001, 232 children were visited. The purpose of each visit was to monitor the children based on nutritional data base. The children are malnourished underweight.(less than  $-2$  SD) and had not gain in weight. On the home visits, staff consult with the mothers and provide them with health education. After the visit, the staff monitor the weight from Health Post (*Posyandu*) monitoring card. For more information on the home visits, please refer to the Home Visit Report provided in Annex 3.

ANNEX 3: HOMEVISIT Report for children in Urban-Reach Jakarta

Chart 1. Improvement of visited children

Chart 2. Weight gain after a month visit

Chart 3. Children Health status when visited

Chart 4. Child Deceased

***Surabaya***

To monitor the children's nutritional status, Urban REACH staff in Surabaya conducted home visits. They also measured the children's weight every month in health posts (*Posyandu*). Please refer to ANNEX 4. for detailed information on activities in Surabaya.

## 1.4. Logistics:

## 1. ACCOMPLISHMENTS PER OBJECTIVES:

|   |   |   |   |
|---|---|---|---|
| <b>GOAL:</b> <i>To increase the nutritional security of 8,000 children in three sub-districts of East Jakarta and five sub-districts of Surabaya over an eighteen months period.</i>  |   |   |   |
| A. Objective 1:   |   |   |   |
| <b>A.1</b> To reduce malnutrition and maintain child health among the target children 6-12 months in East Jakarta and children 6-24 months in Surabaya  |   |   |   |
| <b>Monitoring by Activities:</b>  |   |   |   |
| <b>A.1.1</b> Distribute 144 mts of vitadele in Surabaya and 144 mts of vitadele in East Jakarta.  |   |   |   |
| <b>A.1.2</b> Child growth monitoring by underweight on targeting by age   |   |   |   |
| <b>Indicator :</b>  |   |   |   |
| <ul style="list-style-type: none"> <li>regular distribution of vitadele to 17 villages and 275 posyandus in Surabaya and 17 villages and 233 posyandus in East Jakarta</li> <li># children receive vitadele by group ages (6-12 months and 12-24 months)</li> </ul> |   |   |   |
| <b>Plan for October 2000-March 2001</b>   |   | <b>Accomplishment in October 2000-March 2001</b>  | <b>Explanation of Variance</b>  |
| <b>Activities A.1.1</b>   |   |   |   |
| Surabaya  | Distribute 8 Mts. of vitadele to 4,000 children each month and providing vitadele as supplementary food.                                    | Distribute 47.61 Mts. of vitadele to 5,012 (monthly average) beneficiaries in 18 villages. The vitadele also distributed as supplementary food on <i>Posyandu</i> .                                       | Since November 2000, with USAID permission World Vision distributed to North Maluku Emergency Response, Emergency program under USAID. For this program, 14,685 Mts of vitadele had been distributed. |
|   | Evaluate and socialize the program to local government by attending coordination meetings every two months and sending letters every month. | Some meeting was held to coordinate and to inform Urban REACH activities to Community and to Ministry of Health Representatives.  | No variance at this section.  |
| Jakarta   | Distribute 8 Mts. of vitadele to 4,000 beneficiaries.   | Cumulative distribution of vitadele on March 2001 is 15.02 Mts. Average 1.824 beneficiaries received the vitadele in a month. The vitadele distributed in 240 <i>posyandu</i> that spread in 17 villages. | No variance at this section.  |
|   | Evaluate and socialize the program to local government by attending coordination meetings every two months and sending letters every month. | Some meeting was held with Ministry of Health. The meeting was to report Urban REACH activities and discuss the feedback.   | No variance at this section.  |
| <b>Activities A.1.2</b>   |   |   |   |
| Surabaya  | Measured weight of children who attend the Health Post ( <i>Posyandu</i> ).   | On March 2001, the average of underweight malnourished children in the service area was 28.5 %. Please refer to ANNEX 2 for detail report.  | No variance at this section.  |
|   | HOME VISIT<br>Conduct home visit to malnourished children within the service area.  | Home visit had been conducted since January 2001.<br>For detail information please refers to ANNEX 4.   | No variance to be reported.   |
|   |   |   | Urban-REACH   6   |
